AI Recommendations

- Reduce sugar and refined-carbohydrate intake starting today.
- Aim for at least 30 minutes of physical activity, 5 days a week.
- Schedule a consultation with a healthcare professional soon.
- Monitor your blood glucose levels regularly and keep a log.
- Reduce sodium intake to help manage blood pressure.
- Your BMI indicates obesity — a structured weight-loss plan can significantly lower risk.
- Your glucose reading is elevated — consider a fasting glucose retest.
